

WE HAVE YOUR STABILIZATION SOLUTIONS

UV ABSORBERS

ANTIOXIDANTS

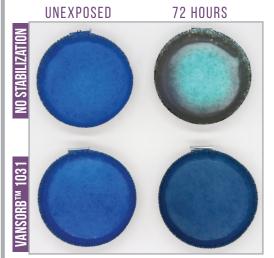

HALS

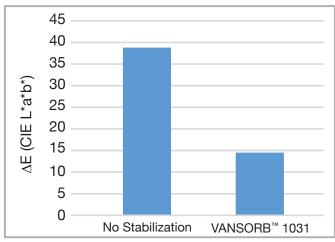

SPECIALTY BLENDS

VANSORB™ 1031

Vanderbilt Chemicals offers an extensive line of stabilizations to the candle industry – For example VANOX® antioxidants and VANSORB™ UV absorbers.

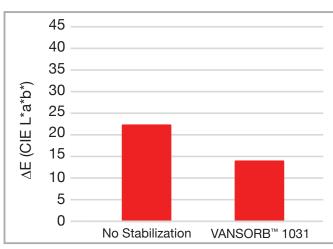

VANSORB 1031 absorbs UV light energy while assisting to prevent damage caused by free radical formation when a candle is exposed to light.

Paraffin wax candle formulation in a light box with continuing exposure to black light for 72 hours.

Soy wax candle formulation in a light box with continuing exposure to black light for 72 hours.

30 WINFIELD STREET, NORWALK, CT 06855 203.853.1400 www.vanderbiltchemicals.com

Vanderbilt Chemicals, LLC is a wholly owned subsidiary of R.T. Vanderbilt Holding Company, Inc., whose roots date to 1916. The company operates chemical-manufacturing plants in Connecticut and Kentucky. Vanderbilt Chemicals, in addition to our own product manufacturing, distributes the products of many distinguished companies under continuing contracts dating back as far as the 1920s. Vanderbilt Chemicals sells products worldwide both through distribution and direct sales; we have offices in the United States, United Kingdom, and China.
