

## **Specification**

## VANAX<sup>®</sup> PY

February 2, 2004

RTV Product Code:45631Composition:23% poly-p-dinitrosobenzene in waxPhysical State:Dark brown pellets

|                                  | Specification | Test Method |
|----------------------------------|---------------|-------------|
| *Ash Content                     | 1.0% maximum  | T-4         |
| *Heat Loss at 60-65°C            | 1.0% maximum  | T-1A        |
| *Poly-p-dinitrosobenzene Content | 21.0-26.0%    | 9G          |

## **GENERAL INFORMATION**

Typical values not routinely measured or reported on the Certificate of Analysis.

| Density at 25°C                        | 0.96 Mg/m <sup>3</sup> |
|--|------------------------|
| Fineness, retained on<br>½-inch screen | 0.1%                   |

Solubility - Soluble in toluene, chloroform, or acetone. Moderately soluble in hexane or gasoline. Insoluble in water.

\*Certified Property

Uses - IIR chemical conditioner; improves resilience, processing safety and electrical properties. Increases cured and uncured modulus. Decreases cold flow and increases "leg strength" in cements.

Standard Container - 50 pound fiber drum
